Opportunities

Solution

GlobalRoomAI

We do not replace your LMS. We make it work for you.

The Gap Nobody Fixed

These problems exist in every school. Every country. Every LMS. Yet no one has built the connecting layer that actually works for the people who need it most — parents and teachers.

Teacher Burnout

Teachers spend 5+ hours every week on administrative tasks — sending updates, answering the same parent questions, managing communication across multiple channels. That's time stolen from actual teaching.

Parent Disconnect

Parents are completely disconnected from daily school life. They see grades weeks later. They miss events. They don't know what homework was assigned. The LMS exists, but it wasn't built for them.

Language Barrier

Multilingual families are completely left behind. School communication arrives in one language. Parents who don't speak it fluently miss critical information about their children's education. No existing system solves this.

EELA — The School Management Layer on Top of Your LMS

Feature	EELA	Moodle	other Kool
Parent Communication	✓	✗	✗
Community Layer	✓	✗	✗
Multilingual AI	✓	✓	✗
Unified Scheduling	✓	✗	✓
Homework + Diary	✓	✓	✓

We don't replace your current LMS. We connect to them and add the missing layers. EELA sits on top of your existing LMS infrastructure. Just the features schools actually need to engage for you and include families.

Core Capabilities

Communication & Community

Class timetables, school events, parent-teacher meetings, homework deadlines, managed and visible in one place. School-wide announcements with read receipts. Parent community forums by class or interest. Event coordination and volunteer sign-ups. All synced with your existing LMS data.

Diary & Homework Integration

Pulls assignments directly from your workspace. Daily activity summaries pushed to parent devices. Photo sharing from classroom activities. Teacher workload: zero extra data entry.

Multilingual AI Layer

Every message auto-translated to parent's preferred language. Supports Estonian, Russian, Ukrainian, English, more to come. AI preserves teacher's tone and context. Non-Estonian speaking families finally included. No translation burden on school staff.

The superpower app for your **Child's Brain**

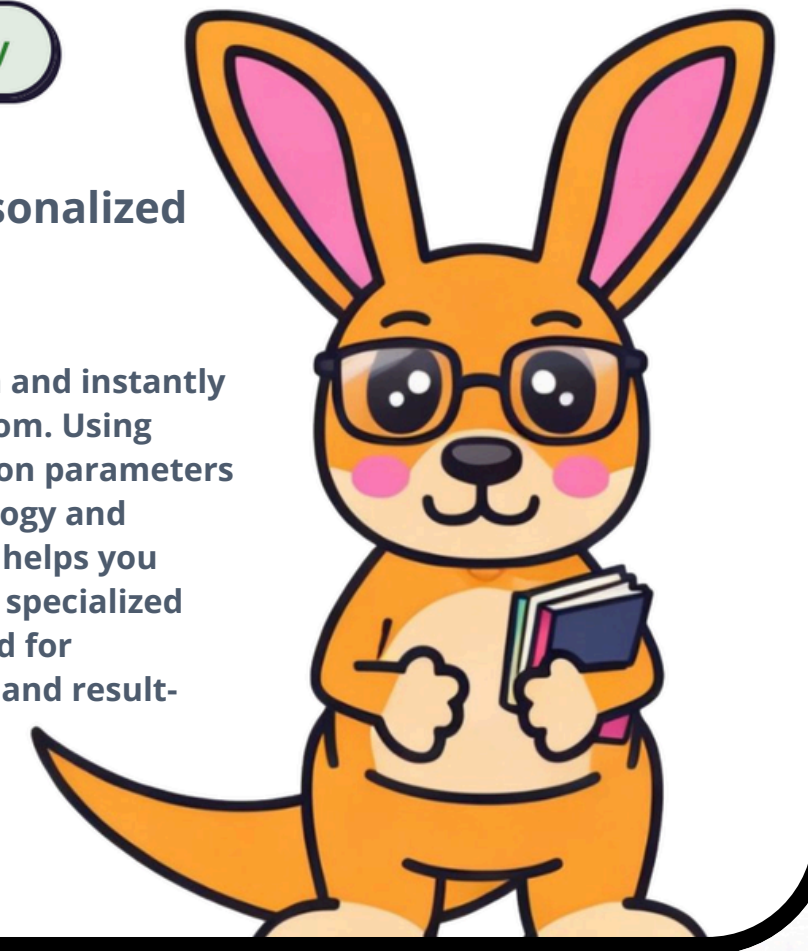

The dual agent Infrastructure for
Neuro-Inclusive Excellence

The Teacher

Dual-Agent Synergy

From PDFs to personalized pathways.

Upload your curriculum and instantly orchestrate the classroom. Using intelligence-identification parameters set by experts in neurology and psychology, the system helps you guide students through specialized learning rooms designed for maximum engagement and result-driven standards.

The "Neuro-Rail" Showcase

A connected intelligence track mapping the learning journey

1

Identify

Maps each child's learning style continuously :
no stressful testing.

2

Adapt

Adjusts difficulty &
format in real time to
keep kids engaged.

3

Connect

Syncs insights instantly
between home and
school ecosystems.

Learning That "Gets" You: An app that knows when you need a break and when you're ready to leap. Learn your way, at your speed.

Let's Build the Missing Layer Together
