ATEA Managed Security Operations

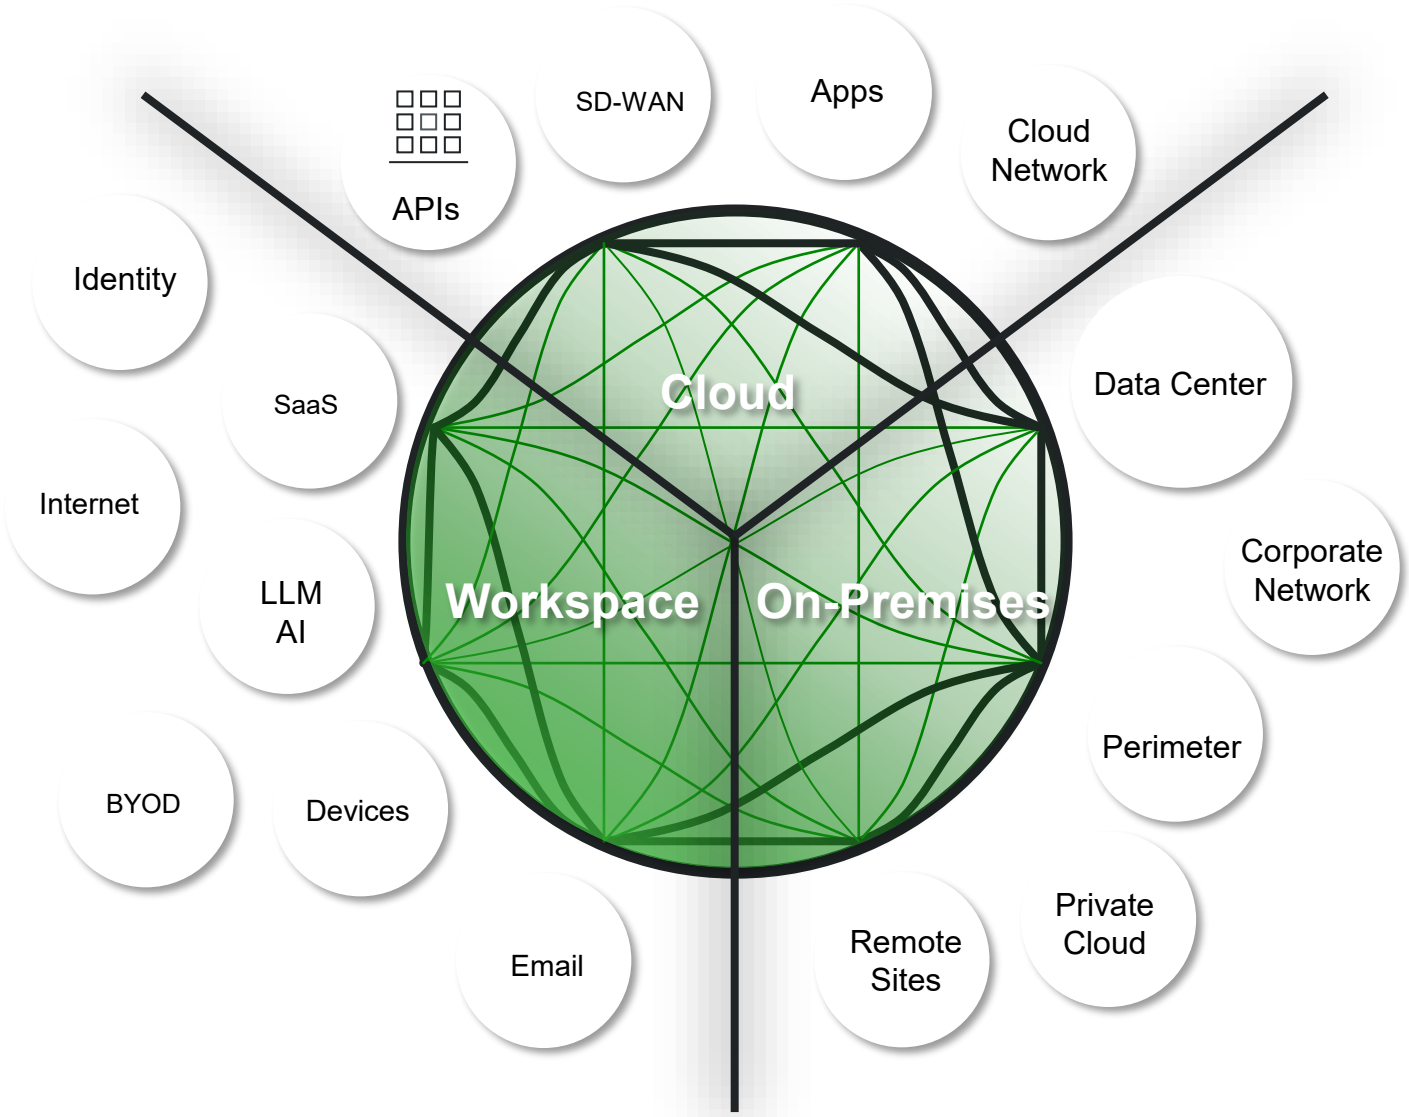
Rasmus Lilleorg & Gintaras Pelenis

2025

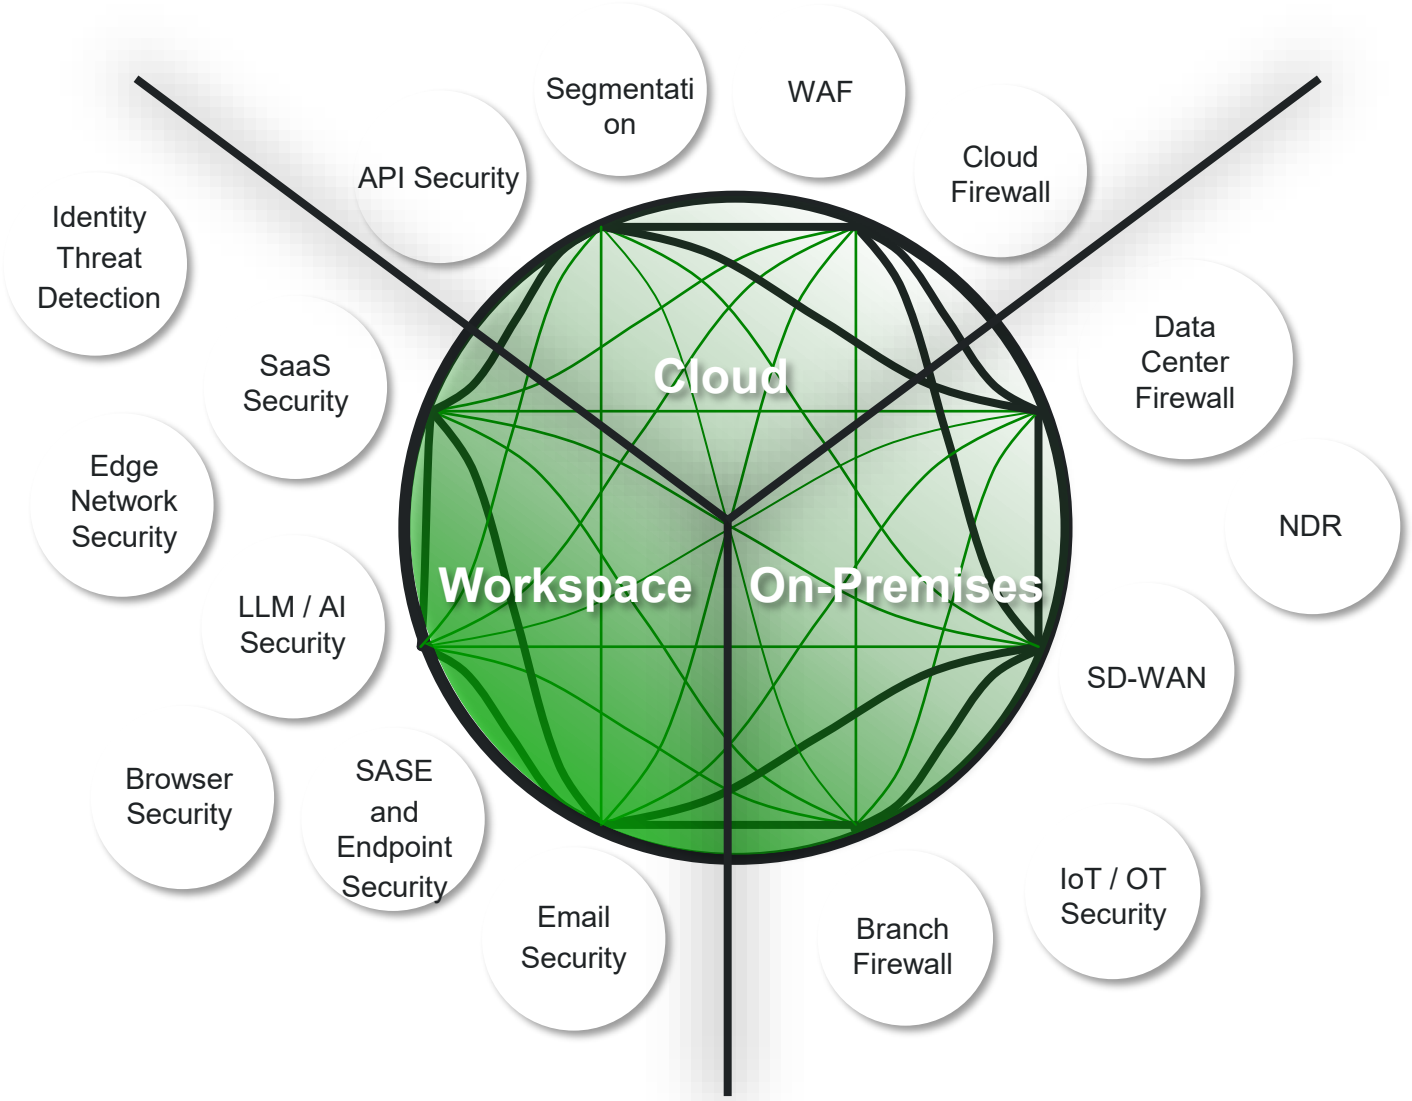
Agenda

1. Today’s Challenges for the SOC
2. Hybrid Deployments Are the "New" Norm
3. The evolution of SOC solutions and services
4. What is ATEA Managed Detection and Response (MDR)?
5. Introducing ATEA M(X)DR 360°
6. Why Atea?

Hybrid Deployments Are the "New" Norm



Disparate security detection and protection stack



The Challenges

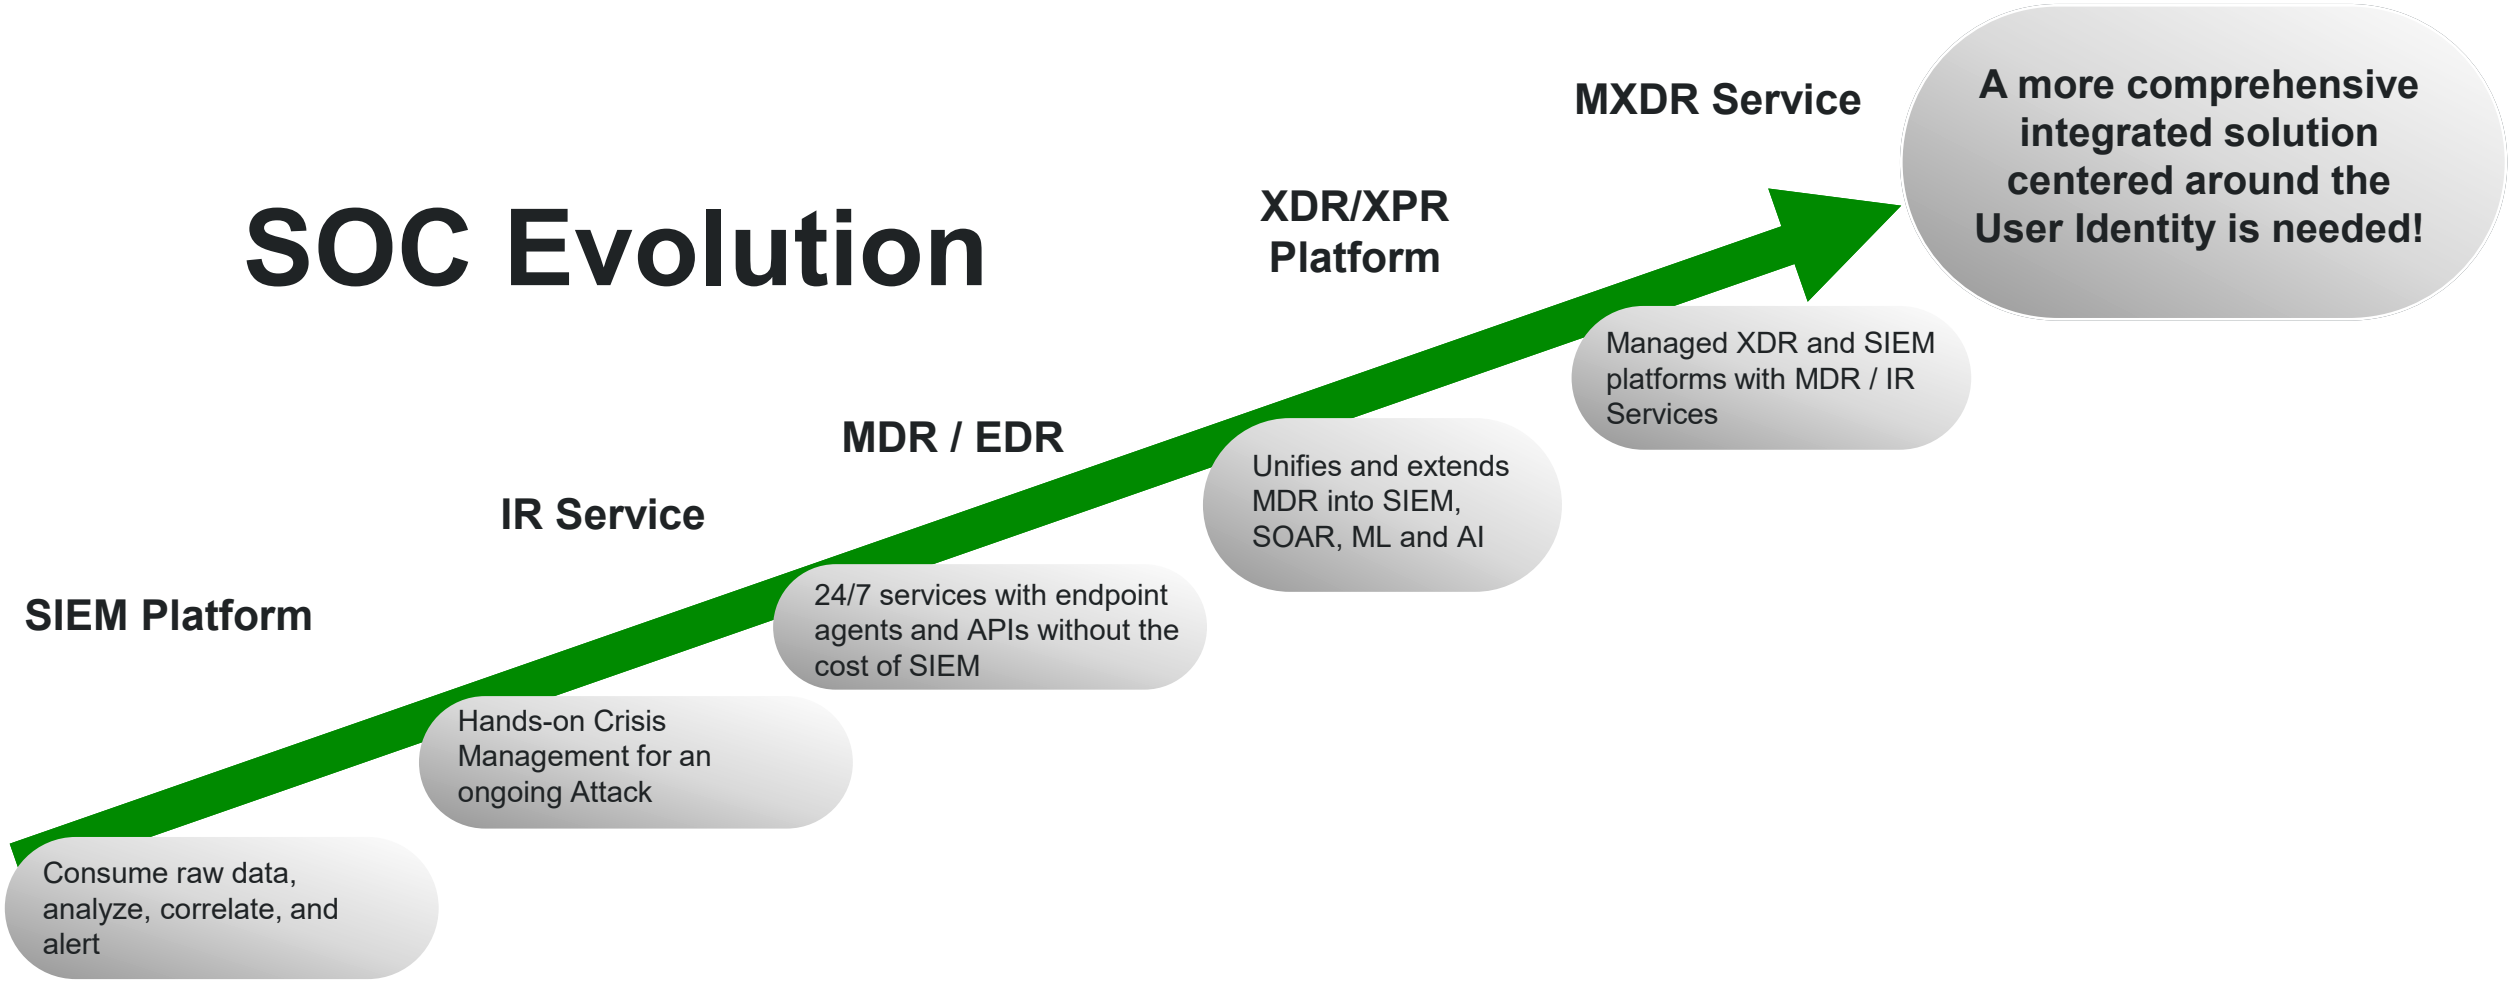
- Growing attack surfaces
- Increasing compliance demands
- Disparate security platforms
- Shortage in security professionals
- Growing cybersecurity costs

Causing security incident overload and delayed response

The evolution of SOC solutions and services

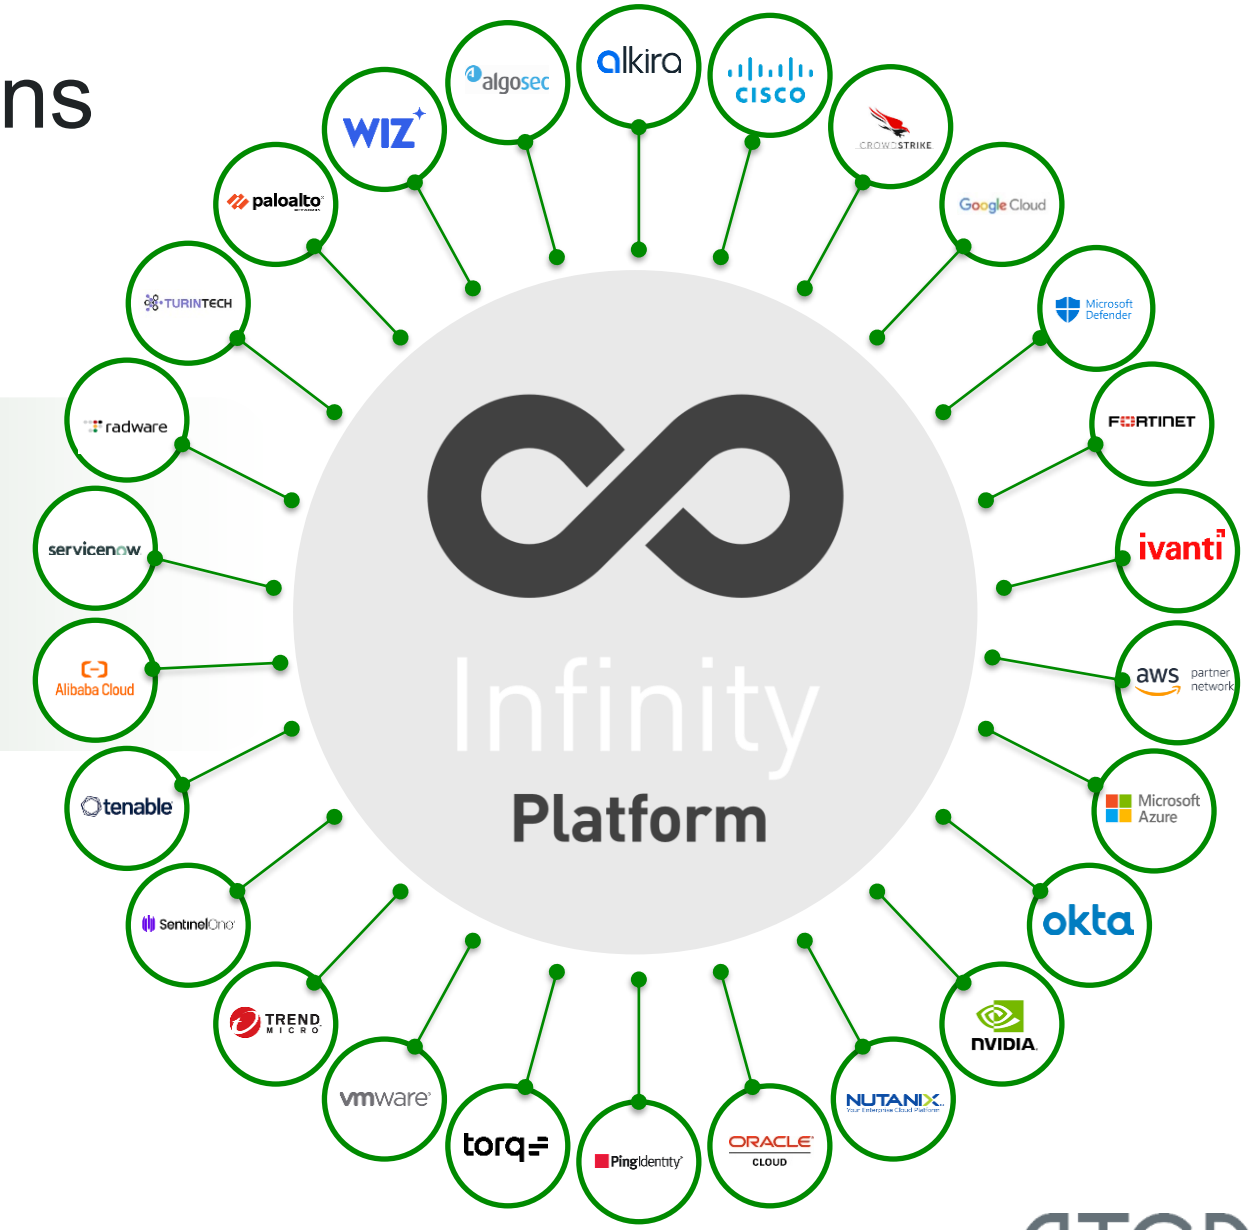
ATEA

SOC Evolution



Industry Leading Integrations

An “Open Garden Approach”



What Atea can do for you?

- Customer Engagement
- Detection & Response
- Incident Response
- Compliance & Reporting
- Integration & Customization
- Assessment & Planning

The Solution

A comprehensive ATEA Co-Managed SOC Platform

Unified, vendor-neutral platform

Simplified compliance

24/7 detection & investigation

Cost-effective

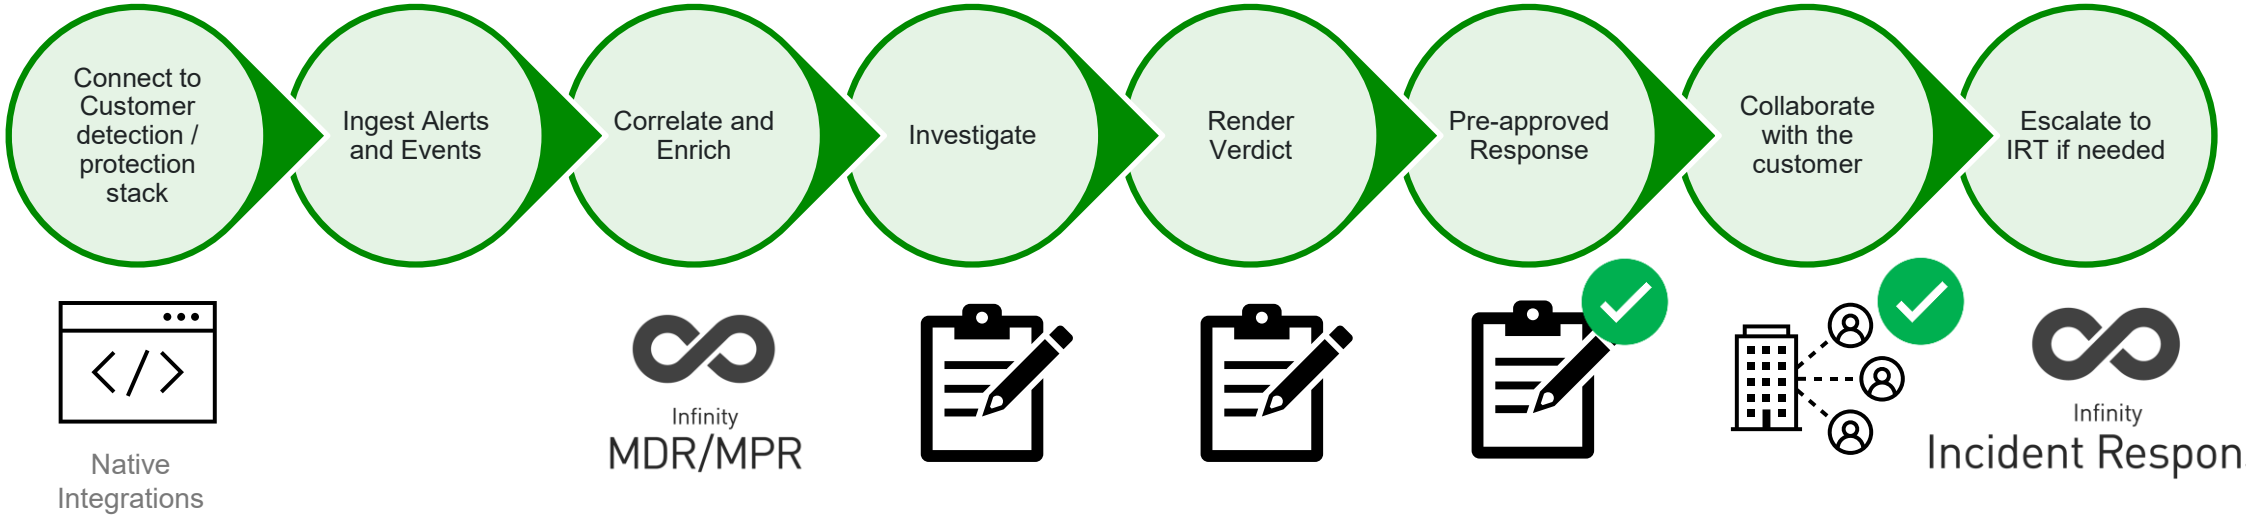
MDR Standard

Detection/Prevention Events	Enrichments and Investigation	Response



ATEA

Introducing ATEA M(X)DR 360°

The next generation of managed detection and response designed to simplify your security operations with integrated solution bundles that include:

- Extended Vendor Agnostic MDR Services
- Co-Managed SIEM / SOAR platform
- Enrichments
  - TI, ML, AI - Check Point Infinity XDR / XPR
  - Identity Threat Detections (ITDP)
- Reactive IR, Crisis Management
- Proactive IR Planning and Assessments

Infinity
MDR 360°

Detection/Prevention Events

Enrichments and Investigation

Response

Connect to Customer detection / protection stack

Ingest Alerts and Events

Correlate and Enrich

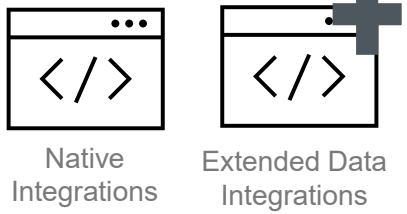
Investigate

Render Verdict

Pre-approved Response

Collaborate with the customer

Escalate to IRT if needed



Native Integrations

Extended Data Integrations

Infinity MDR/MPR

tenable Identity Exposure

Infinity XDR/XPR

Infinity Incident Response

ATEA

Solution Summary

Solution Summary	MDR	MDR 360°	MXDR 360°
Managed Detection and Response Service (MDR)	✓	✓	✓
24/7 Global Team - Incident Investigations, Analysis with Recommend Response	✓	✓	✓
Data Residency Options - EU, US, AUS, Canada, India, UAE, UK	✓	✓	✓
Incident Response Team Services (100/55 IR hours per year)	✓	✓	✓
24/7 Global Team - Crisis Management, Root Cause Analysis, Compromise Assessments	✓	✓	✓
Standard Integrations	✓	✓	✓
MDR Platform for 1st party and 3rd party alert ingestion and correlations	✓	✓	✓
Extended Integrations		✓	✓
MDR Security Data Lake* for extended data integrations		✓	✓
Identity Threat Detection Platform – Microsoft Active Directory / Entra ID and Okta		✓	✓
Check Point Infinity XDR / XPR / Playblocks Platform		✓	✓
Additional enrichments, threat intelligence, ML / AI and self-service security tools		✓	✓
Playblocks for protection automation (limited SOAR)		✓	✓
Managed SIEM and Enterprise Security Data Lake**			✓
160+ SIEM Integrations, raw data sources, custom data sources, UEBA, SOAR platform			✓
Security Data Lake for full fidelity long term data retention			✓

Why Atea?

- Local Presence
- Co-Managed Flexibility
- Vendor-Neutral Approach
- 24/7 SOC Operations
- Incident Response Expertise
- Strategic Advisory
- Check Point Technology Integration
- Scalable Service
